

BOONE COUNTY *Solid Waste Management District*

Community Grant Program - 2020

Introduction

The Boone County Solid Waste Management District (“District”) is responsible for implementing programs to promote proper integrated solid waste management within Boone County. Elements of the various programs include:

- Waste Reduction
- Recycling
- Composting
- Resource Recovery
- Prevention of Illegal Dumping & Burning
- Proper Disposal of Household Hazardous Waste, Expired or Unwanted Medications and Non-Recyclable Solid Waste

To supplement the District’s efforts toward continued progress in meeting the objectives of the District’s programs, the District is pleased to offer an environmental grant program as described in this document. The grants are intended to help conserve natural resources, decrease dependence on disposal, demonstrate the importance of sustainability, and generally promote improvements in the health and welfare of the residents of Boone County.

Eligibility

All local units of government, non-profit organizations, schools, civic organizations, businesses and clubs operating within Boone County are eligible to apply. All applicants must have good financial, environmental, health and safety records. Applicants delinquent on Boone County property taxes or District fees will not be eligible. All grant funds will be paid to the organization, not to an individual. All grant funded activities must take place within Boone County.

Project Guidelines

Applicants may apply for a grant of any value up to \$5000 in any particular calendar year. The funds must be distributed within the following calendar year. Preference will be given to innovative solid waste reduction, reuse, or recycling programs that can serve as models to other communities and institutions in the County. Proposals may include but are not limited to: new or expanding recycling programs, environmental education programs, waste related public outreach initiatives and recycled content purchasing initiatives. Grant funds may not be used for payment of services (i.e. hauling services for recyclables/trash, advertising, etc.). The following is a list of sample projects that may be considered for the District grant program. This list is not exclusive, and serves only to provide applicants with ideas on which to build upon.

- Purchase of permanent bins for recycling
- Purchase of recycled content playground, park or trail equipment and accessories
- Purchase of proper disposal containers (i.e. cigarette butt or pet waste containers)
- Funding for environmental education and outreach activities

Grant Review Process

Each grant application will be reviewed by the District's Citizens' Advisory Committee ("CAC"), and the District staff. The CAC, with input from the staff, will forward recommendations to the District's Board of Directors. The Board will review the applications and the recommendations provided. They will then determine which projects are most worthy of funding based on the predetermined selection criteria listed on the application. Decisions of the District's Board members whether to grant funds at any particular time are subject to the sole discretion of the Board, regardless of the merit of any pending applications, and any solicitation by the District of applications under the Grant Program does not bind the District to provide funding to any project(s).

Application Process & Timeline

Please complete the attached questionnaire and submit to the District office via:

Electronically: jlawrence@co.boone.in.us
Include the subject line: GRANT APPLICATION

Mail: Boone County Solid Waste Management District
127 West Main Street
Suite 313
Lebanon, IN 46052

Hand Delivery: District Office
3rd Floor of the Key Bank building
on the south side of the Courthouse Square
127 West Main Street, Suite 313
Lebanon, IN 46052

Application Deadline: **Friday, September 27, 2019**

Grantees will be considered at the District Board Meeting on Thursday, November 21, 2019 at 8:30 am in the Connie Lamar Meeting Room in the Boone County Annex at 116 West Washington Street, Lebanon.

Implementation of Selected Grant Projects

Upon selection, all grantees will receive an award letter that will give additional information regarding the awarded grant funds. The award letter will include such information as the monetary value, the steps on how to obtain funds, and the requirements of proof regarding the implementation of the grant funds. The Board may place constraints and stipulations on the project. For example, the Board may require various forms of recognition for its financial support or suggest additional educational items to be included within the grant project (i.e. signage). At any time, grantees may be requested to appear before the Board to describe the progress of the project.
